

# PRODUCT SPECIFICATION

## Cast Coated Opaque Permanent

### Description

- 85gsm white woodfree cast coated (highgloss) paper.
- Excellent gloss, smoothness and whiteness for high quality labelling applications.
- The very high opacity is achieved by adding dye to the adhesive coating making the product excellent for secondary or 'correction' labelling.
- Minimum application temperature: 0°C
- Temperature range: -20°C to +80°C

Aqueous acrylic emulsion adhesive. Chill grade - ideal for chilled food labelling. Very good heat resistance which enables trouble free performance in different hot fusing print processes. Good adhesion to cardboard and low energy (e.g. plastic bags) surfaces. Good 'all round' permanent adhesive. Approved for indirect food contact.

The adhesive conforms to the EN71-3 (Toy Safety) & Packaging (Essential Requirements) Regulations. No heavy metals are used in the manufacturing process and typical contents are less than 1 ppm.

### Laminate Information

Thickness: 172 mic      Weight: 190 gsm

### Backing

White high density kraft paper with excellent lay flat properties

### Printing Compatability

For detailed printing information please refer to our 'Printing Guidelines'
