

Material Data Sheet for Antimicrobial Labels, White, Permanent

Film Labels with Coating

Coating			
This is to confirm that the mentioned labels have an antimicrobial coating. The coating was successfully tested by an independent accredited laboratory in accordance with ISO 22196 (mod.). The effectiveness against bacteria, viruses, fungi and spores has been confirmed with an efficiency of 99.99%.			
Top material			
Material description	White, matt polyester film		
Printer suitability	Colour/monochrome laser printer models and copier		
Thickness	DIN EN ISO 534	µm	58
Grammage	DIN EN ISO 536	g/m ²	80
Adhesive			
Material description	Acrylic, water based adhesive		
Liner material			
Material description	White kraft paper, one side siliconized		
Laminate			
Thickness	DIN EN ISO 534	µm	188
Grammage	DIN EN ISO 536	g/m ²	204
Service temperature	-20 to 80° C		
Min. application temperature	0°C		
Optimum storage conditions	23°C at 50%rH
